Story time: Rat-A-Tat-Tat

Prepare learners for tomorrow through curiosity, engagement and real-world experiences.

ESPRESSO

Meet the new Discovery Education Espresso

Your daily learning platform

Discovery Education is committed to giving educators innovative ways to design and deliver engaging learning experiences for all pupils. Built around the amazing, timely content we're known for, Espresso is one secure place educators can rely on for the tools, resources and professional inspiration to engage students, and track their progress, every day.

Discovery Education

Serving Classrooms Around the World

Discover powerful learning resources

It's easy to find, save and return to the content you need for your daily lessons. Espresso's learning resources are carefully curated into channels focused around curriculum objectives and topics. Save relevant resources in your QuickList or organise into folders in My content.

We help learners to:

1. Increase engagement and interest in lessons, maintaining high attendance and participation.
2. Derive most value from our premium content and make more progress in learning activities that are proven to work.
3. Develop self-directed, independent learning skills via individual logins which builds investment in learning.

“

We use Espresso in school to help motivate, engage and support learning in the classroom. Now children from Wu Kai Sha Kindergarten can continue to enjoy what they have been doing at school, and you can be involved in your child's learning at home.
